Ideation Phase

Empathize & Discover

Date: 30 September 2026
Team ID: _____
Project Name: Employee Issue Management System
Maximum Marks: 4 Marks

Empathy Map Canvas

An empathy map captures knowledge about a user's behaviours and attitudes to help teams better understand their users.

SAY

- I need an easy way to raise my issue.
- I want to know whether my request was received.
- I need clear information about the status of my issue.

THINK

- Will my issue reach the correct HR or support team?
- How long will it take to resolve?
- I should not have to repeatedly follow up through email.

DOES

- Raises issues through email or informal communication channels.
- Provides issue details and supporting information.
- Follows up when there is no visible status.

FEELS

- Frustrated by delays and manual follow-ups.
- Uncertain when there is no status visibility.
- More confident when the process is standardized and transparent.

PAINS / CHALLENGES

- Non-standardized issue reporting
- Delayed resolution
- No clear status visibility
- Manual follow-ups

GAINS / NEEDS

- Simple Service Portal submission
- Standardized issue data capture
- Clear issue status
- Better assignment and tracking

KEY INSIGHT

The employee needs a centralized Service Portal experience where a Record Producer captures standardized information and the issue can be validated, assigned, prioritized, and tracked.
